SUMMARY

Motivated and diligent IT and Emerging Technologies student with practical experience in software development, scripting, and RESTful API integration. Strong foundation in Python, C#, Java, JavaScript, Lua, and web technologies, supported by practical experience in technical troubleshooting, system maintenance, and user support. Recognized for reliability, creativity, and a 3.95 GPA. Seeking a software engineering position to apply programming and integration skills within a business environment.

TECHNICAL SKILLS

Languages: Python, C#, Java, Lua / Luau, JavaScript, HTML/CSS, Visual Basic, VBA, SQL (basic), R (basic)

Frameworks & Tools: .NET, Mono/XNA, GitHub, GitHub Copilot, RESTful API development (academic & personal projects), command line, Agile (academic exposure), MS Office, GCP & Azure (basic)

Operating Systems: Windows, Linux (intermediate)

Technical Competencies: Application development, scripting, debugging, version control, hardware & software troubleshooting, system updates, cybersecurity principles, ethical IT practices

EDUCATION

Master of Science in Emerging Media and Technology - Coding & Analytics | Graduation: May 2027

Kent State University | Kent, OH | GPA: 3.85

Bachelor of Science in Information Technology | May 2026

Kent State University | Kent, OH | GPA: 3.95 (*summa cum laude*)

Associate of Science | December 2024

Kent State University | Kent, OH | GPA: 3.93 (with distinction)

EXPERIENCE

Systems Intern, Ohio CAT / Ohio Machinery Co., Summer 2026

Support application integrations, system upgrades, and interface maintenance through testing, documentation, and troubleshooting using XML, Java, SQL, and Azure-based tooling

Student Technician, College of Arch. and Env. Design, Kent State University, Fall 2025 - Spring 2026

Performed OS updates and maintenance on lab computers, managed & troubleshoot issues with wide-format plotters/printers, provided daily technical assistance to students and faculty

IT User Support Technician, College of Arts & Sciences, Kent State University, Fall 2024

Delivered Tier 1 help desk support for university IT systems, resolved hardware/software issues and configured IT devices, assisted in classroom and department technical setups

PROJECT HIGHLIGHTS

Portfolio: <https://apittma8.github.io>

Developed and extended existing programs in Lua, C#, Python, and Java

Integrated RESTful APIs into projects to enable dynamic data retrieval and expand features.

Built structured, responsive web pages and apps using HTML, CSS, JavaScript, React, and Node.js.

Automated repetitive Office tasks by creating VBA macros that improved workflow efficiency.

Applied real-world and lab-based troubleshooting skills to diagnose and resolve technical issues.
