aep@speedforge.net · <https://www.linkedin.com/in/aepswdev> · Kent, OH 44240

SUMMARY

Versatile software developer with multi-language experience across automation, systems workflows, and API-driven components. Skilled in Python, Lua, JavaScript, Java, C#, and PowerShell, with hands-on work in integration, automation, scripting, and problem-solving. Experienced in remote support, async communication, and independent task ownership; known for reliability, creativity, and adaptability.

TECHNICAL SKILLS

Programming & Scripting: Python, Lua/Luau, JavaScript, Java, C#, Visual Basic, VBA, PowerShell; exposure to SQL; automation, systems workflows, and API-driven components

Frameworks, Tools & Platforms: Visual Studio, VS Code, IntelliJ IDEA; GitHub, GitHub Copilot, Teams, Slack; Remote Desktop; .NET, Mono, XNA; RESTful APIs, OpenText OTS Designer; Windows, Linux & command line; familiarity with Azure & GCP

Core Technical Competencies: Application development, systems integration, workflow automation, debugging, scripting, version control, troubleshooting, documentation-driven workflows, cybersecurity principles, ethical IT practices

EDUCATION

Kent State University – Kent, OH

M.S. Emerging Media & Technology (Coding & Analytics) | GPA 3.90 | Expected completion: May 2027

B.S. Information Technology (Integrated Information), *summa cum laude*

EXPERIENCE

Systems Intern, Ohio Machinery Co. (Ohio CAT & Peterbilt), Brecksville, OH - Summer 2026

Built Python tooling for XML/image-to-PDF conversion and integrated it with OpenText OTS Designer for API archival; automated workflows with PowerShell and Python; resolved integration issues; revised Excel formulas and macros; performed remote deployments and troubleshooting of IBM ACS installations using secure access tools; worked operationally independent with weekly alignment.

Student Technician, College of Arch. and Env. Design, Kent State University - Fall 2025 – Spring 2026

Supported print-queue output processing; resolved wide-format printer/plotter issues; maintained lab systems through OS updates and repairs; provided technical support that kept labs running reliably.

IT User Support Technician, College of Arts & Sciences, Kent State University - Fall 2024

Provided Tier 1 support for university IT systems, resolved routine hardware/software issues, configured devices, and assisted with classroom technology setups.

PROJECT HIGHLIGHTS

- Portfolio: <https://portfolio.speedforge.net>
- Built Python tooling for XML/image-to-PDF conversion; OTS Designer used for final API processing
- Developed and extended programs in Lua / Luau, Python, JavaScript, Java, C#, & MS Powershell
- Integrated RESTful APIs into projects to enable dynamic data retrieval and expand features
- Built structured, responsive web pages and apps using HTML, CSS, JavaScript, React, and Node.js
- Automated repetitive Office tasks by creating VBA macros that improved workflow efficiency
